AA TRUCKS—see car/truck review section at back of index

ACCESSORIES-
- Motor meters Vol 9 pg 1
  10 pg 28, 29
- Dial style gauges 9 pg 2
- The “Upstarter” 11 pg 59
- Winter accessories (for the windshield) 11 pg 60
- Clocks for the Model A 11 pg 66-67
- Promotional Ford pocket watches 11 pg 79
- Oil/temperature gauges 11 pg 99

ALIGNMENT-
- Setting front wheel toe-in Vol 10 pg 13
- Proper front end alignment 10 pg 88, 89
- A cheap and easy toe-in alignment fixture 11 pg 7
- A procedure for measuring camber 11 pg 81-82

AMMETER-
- Function, repair, troubleshooting Vol 3 pg 58
- Understanding ammeter readings 6 pg 31
- Early meter features 6 pg 64
- Use, testing, troubleshooting 6 pg 98
- Ford script meters 10 pg 102
- Disassembly, tips for good operation 11 pg 100-101
- Incorrect ammeter faces 11 pg 119

ASSEMBLY-
- Detailed manufacturing assembly notes Vol 10 pg 98-100
  for the Model A Ford
- The Cleveland, Ohio Ford plant 11 pg 48-50
- Production/introduction of the Model A 11 pg 90-95

AXLES-
- Rear axle restoration Vol 1 pg 101
- Rear axle spindle restoration 2 pg 37
- Front axle design 2 pg 40
- Front spindle restoration 2 pg 42
- Rear axle-design differences 2 pg 45
- Rear axle grease retainer 4 pg 46
- Front wheel shimmy 5 pg 28
- Spindle bolt locking pins 5 pg 27
  10 pg 9
-Rear axle wear on the AA 7 pg 77
-Step by step examination/repair of the 9 pg 118
  entire front end assembly
-Installing King Pins 10 pg 9
-Ford script front axles 10 pg 95
-A procedure for measuring camber of 11 pg 81-82
  front axles
-Production of the rear axle assembly 11 pg 113-114
  components

AUTOMOBILIA-
  -Bumper and license plate attachments Vol 8 pg 80

BABBITT-
  -Burned main bearing Vol 5 pg 30
  -KR Wilson process 5 pg 60
  -Composition, why used 5 pg 79
  -The Babbitt “Dr.” 6 pg 8

BADGES-
  -Ford factory badges and service awards Vol 9 pgs 64, 67, 78, & 83
  -Ford trade school student badges 10 pgs 91,92
  -Historical emblems from the early Ford 11 pg 16-17
   companies

BATTERY-
  -Battery disconnect Vol 2 pg 26
  -Effects of overcharging/undercharging 3 pg 30
  -Factors affecting battery life 3 pg 32
  -Prolonging the life 5 pg 51
  -Prolonging the life, part 2 7 pg 27
  -Infrequently used batteries 5 pg 66
  -Battery basics 5 pg 114
  -Early battery ground straps 8 pg 24
  -Battery covers in the floor board 9 pg 45

BELTS-
  -Correct colors Vol 6 pg 2

BENDIX DRIVE-
  -Bendix drive Vol 4 pg 5
**BODY**
- Woodgraining                          Vol 1 pg 19
- Interior colors                       1 pg 85
- Frame and body bolts                  2 pg 83
- Installing a lowering rear coupe window 3 pg 87
- Roof drip moldings                    3 pg 119
- Installing roof drip molding          3 pg 119
- Painting the exterior body            3 pg 120
- Front seat alignment                  4 pg 102
- Roadster top props and straps         4 pg 108
- Landau irons - correct color          6 pg 1
- Trunk/rumble lid handles              6 pg 51
- Door check straps                     7 pg 12
- Door bumpers and grommets, open cars  7 pg 52
- Side curtain rods                     8 pg 85
- Differences in rear hood hinge retainers 8 pg 108
- Cowl grommets and firewall lacing     8 pg 108
- Rear fender step plate, raised fender dimple 9 pg 73
- Rear spare wheel carrier assemblies   9 pg 81
- Inside and outside door handles for open cars, features and differences 9 pg 89
- Early rear fender design details      10 pg 5
- Rear fenders-different lengths        10 pg 63
- Floor board screws                    10 pg 75
- Side curtain rods                     10 pg 78, 79
- Station Wagon- brackets for tail light, stop light and license 11 pg 4
- Hood latch restoration                11 pg 51-56
- Dust shield panel details- ‘30-31 trucks 11 pg 58
- Interior door and window handle restoration 11 pg 61-62
- Differences in front license clips, bolts 11 pg 63
- 1930 running board construction, design and assembly 11 pg 110-112

**BOLTS**
- Frame and body bolts                  Vol 2 pg 83
- Grades, quality, concerns             5 pg 106

**BRAKES**
- Brakes - disassembly/reassembly      Vol 1 pg 26
- Rear brake restoration               2 pg 14
- Early Model A brakes                 2 pg 66
- One-piece brake cross shaft          2 pg 73
- Brake rod adjustment                 2 pg 89
                                          9 pg 3
-Brake cross-shaft lubrication 3 pg 65
-Brake rod repair 3 pg 108
-Brake lubrication 5 pg 72
-Brake backing plate differences 6 pg 42
-Brake lever arms 7 pgs 87, 102
-Details of differences in brake rods 8 pg 83
-Overhauling the Model A brake system 8 pg 107
-Early, later rear service brake camshafts 9 pg 46
-Early, later emergency brake toggle levers 9 pg 48
-Restoring Model A brakes 9 pg 100
-Brake adjustment instructions 10 pg 7, 8
-Left-hand emergency brakes 10 pg 10
-Tools to install/remove front backing plate Bolts 11 pg 65
-Restoring the Model A brake cross shaft 11 pg 8-11
-Early rear brake camshaft lever arms 11 pg 64

BUMPERS-
-All bumpers were chrome Vol 1 pg 12
-Bumper and arm styles 4 pg 119
-Model A bright work 5 pg 35
-Early bumper arm and bar styles 6 pg 94
-Late 1928 through 1929 bumperettes 7 pg 4
-Building a Model A flag holder (for the bumper) 7 pg 42
-Center bumper clamps 7 pg 81
-Bumper and license plate attachments 8 pg 80
-Restoring stainless clad bumper clamps 10 pg 34, 35
-Center bumper clamp variations 11 pg 14-15
-Bumper bar end bolts, nuts and numerates 11 pg 63

CARBURETOR-
-Zenith carburetors-function and repair Vol 1 pg 34
-Double venturi early carburetors 1 pg 56
-Fixing carburetors 2 pg 9
-Types, changes 3 pg 49
-Notes, discussion 4 pg 1
-Tilloston carburetors 4 pg 38
-Repair tips 4 pg 47
-Venturis 4 pg 53
-Rough but restorable carburetors 5 pg 49
-Carburetor orifices testing 5 pg 87
-Zenith carburetors-history and production 5 pg 110
-Zenith-3 production dates 6 pg 1
-Zenith-3-documentation story 10 pg 31,32
-Carburetor jets 6 pg 38
   -Zenith jets 9 pg 19
- Early Zenith embossings 6 pg 42
- Carburetor accessories 6 pg 49
- Raised-letter carburetors 6 pg 85
- Gasoline leaks in Zenith carburetors- causes and cures 7 pg 36
- Linkage rods 7 pg 52
- Holley manufactured Zenith carburetors 8 pg 23
- Flow testing Zenith carburetor jets 8 pg 29
- Explanation of the Zenith jet numbering system 8 pg 106
- Adjusting the carburetor 8 pg 111
- Features of a side bowl carburetor 9 pg 12
- Model B Zenith venturi sizes 9 pg 55
- Zenith carburetors- the importance of using correct metric taps and threads when rebuilding 9 pg 93
- Details of the Zenith carburetor 9 pg 102
- Original carburetor castings 9 pg 111
- Zenith carburetor choke nut evolution 10 pg 26
- Adjusting rod locking sleeves- differences 10 pg 74
- Carburetor facts- 10 pg 94,95
  - Throttle stop screws
  - Idle jets
  - Gas adjusting needles and housings
  - "Show Car" features
- Carburetor lever details 11 pg 58

CHASSIS- (also see FRAME)-
- Frame and body bolts Vol 2 pg 83
- Motor mounts 3 pg 16
- Side wheel carrier 4 pg 52
- 1930-31 wheel carrier markings 10 pg 11
- Chassis repair and preparation 5 pg 37
- Examples of original motor mount rubber pads 8 pg 25
- Evolution of front motor mounts 8 pg 45
- Differences in late running board brackets 8 pg 53
- Front fender brackets, stamped 8 pg 75
- 1930-31 emergency brake cross-shaft support brackets 9 pg 12
- Replacing the front radius rod ball joint assembly 11 pg 105-106
**CLUTCH**
- The clutch and transmission  
  Vol 2 pg 106
- The clutch pedal shaft and washer  
  5 pg 10
- Installing a single plate clutch  
  5 pg 10
- Double-clutching  
  5 pg 90
- The multi-disc clutch rear disc  
  9 pg 65
- Double-clutching the Model A  
  11 pg 12

**COIL**
- Discussion of the ignition system  
  Vol 1 pg 61
- Troubleshooting the electrical system  
  1 pg 69
- Notes on the ignition system  
  2 pg 117
- Coil wiring changes to the ammeter  
  4 pg 46
- Coil polarity  
  5 pg 32  
  9 pg 56  
  10 pg 26
- Ford script coils  
  7 pgs 97, 102
- Securing coil wire brass tips  
  10 pg 28
- Date markings on early coils  
  11 pg 13-14

**CONDENSER** - See coil, distributor, electrical systems and ignition.

**CONVERSIONS**
- Converting Sedan Deliveries into pickup trucks  
  Vol 6 pg 25

**COTTER PINS**
- Types, correct installation  
  Vol 7 pg 65

**COWL**
- Cowl band repair  
  Vol 3 pg 81
- Cowl lamps  
  4 pg 20
- Cowl cardboard and wiring retainer clips  
  7 pg 46
- A cowl light location tool  
  9 pg 35

**DISTRIBUTOR**
- Ignition system  
  Vol 1 pg 61
- Electrical system  
  1 pg 69
- Ignition cable wire  
  1 pg 81
- Rebuilding the distributor  
  2 pg 103
- Notes of the ignition system  
  2 pg 117
- Distributor breaker plates  
  4 pg 102
- Breakaway view of the distributor  
  4 pg 107
- Problem points  
  5 pg 86
- Distributor basics  
  6 pg 28
- Early distributor castings 6  pg 51
- Early features of the distributor 6  pg 56
- Spark plug/distributor connectors 7  pg 10
- Linkage rods 7  pg 52
- Distributor base oilers 7  pg 103
- Adjusting the timing lever (spark) when driving 8  pg 10
- Checking the points for spark 8  pg 34
- Date codes on upper distributor plates 8  pg 44
- Early distributor cap clamp rivets 10  pg 26
- Ford script distributor parts 10  pg 26
- On-going changes in the Model A distributor 11  pg 24

DRIVABILITY-
- Preparing the Model A for driving and touring  Vol 6  pg 85
  9  pg 51
- Improving drivability of the “A” 7  pg 20
  - Engine
  - Chassis
  - Clutch
  - Headlamp alignment
- Drive your “A” as Henry made it 7  pg 67
- Adjusting the timing lever (spark) when driving 8  pg 10
- Advantages of a copper manifold gasket 8  pg 100
- How to start the Model A 9  pg 23
- Double-clutching the Model A 11  pg 12
- Starting an engine that has sat idle 11  pg 102

EARLY MODEL A’S- Distinctive features  Vol 2  pgs 23, 31, 68
- Features of the original first 200 A’s 8  pg 32
- Model A number A-189 8  pg 13
  10  pg 51-54
- Extra holes in some pillar assemblies 11  pg 32,33,43

EARLY PARTS AND FEATURES-
- Ammeters  Vol 6  pg 64
- Axle-front 6  pg 33
- Axle-locking pins 6  pg 41
  3  pg 43

EARLY PARTS AND FEATURES- Cont’d  Vol 6  pg 43
  7  pgs 87, 102
- Bows-top bows 5  pg 53
- Early brakes 2  pg 66

- Early Model A jacks 10 pg 10
- Proper use of tools 10 pg 22, 23
- A list of tools needed for touring emergencies 10 pg 25
- Fabrication of a rear wheel hub puller 11 pg 31
- Model A tools and instruction books 11 pg 40
- Tools for front backing plate bolts 11 pg 65
- A steering worm installation tool 11 pg 102

## TOPS AND TOP RESTS

- Replacing top material Vol 4 pg 91
- Roadster top rests, straps, and window frame cushions 4 pg 108
- Soft top foundation panels 5 pg 56
- Tops and side curtain materials and design 8 pg 86

## TRANSMISSIONS

- The clutch and transmission Vol 2 pg 106
- Replacement flywheel pilot bearing 4 pg 48
- The Model A transmission 5 pgs 1, 11, 15, 20
- The reverse idler shaft collar 6 pg 34
- Transmission lubricants and shifting 7 pg 108
