

Welcome back to “Wisconsin” In 2021

The Hospitality has not changed since you were here in 1972, 1982, 2002, 2012....

We still eat cheese curds, the “squeaky cheese”

**“With 2020 vision, the focus is on
Oshkosh”**

Back by popular demand, many activities will be held at the world famous Experimental Aircraft Association grounds and the Air Venture Museum. The museum with its ever changing exhibits will again be available free to attendees every day during the meet.

Enjoy small town convenience, no expressways.. Small town environment, with great waterway and lake views. Stroll the “river walk” right from the Best Western with its river front restaurant.

Walk Main street, where portions of the film “Public Enemies” starring Johnny Depp were filmed, right from the host hotel.

The effects of the Coronavirus.....

The “2020 Focus on Oshkosh” committee has been working hard to keep the 2021 program the same as originally planned for 2020 postponed meet. However, due to the Covid-19 virus we find it difficult to get commitments from not only our Nickle A members, but from some suppliers and participants. As normal the schedule and registration form needs to be to the MARC News editor by December 1st, 2020. Thus, some scheduled events maybe changed or even cancelled come June of 2021. If you sign up for an event and it changes, we will notify you to see if you would like to partake of the new event or wish to cancel. If you chose to cancel you will be reimbursed the fee in the form of a cash refund when you pick up registration. We trust that conditions will change by June 2021 or even by the time you receive the January/February MARC News issue and we will back to normal. The Nickle A Region thanks you for your patience and hope you will plan on attending the postponed 2020 national meet in Oshkosh. See you in June
